

PUNTO DI ACCESSO

Cod. Reg 444600

Cod. CRQ 0055

CLINICAL REPORT

ID N.: 4720

05/22/2022 10:35

Cognome Nome

RAJENDRAN JISHNU

Cod. Fiscale

RJNJHN95B13Z222R

Data di nascita

02/13/1995

Indirizzo

**Via B. Guzzardi, 15, 95100,
Catania, Italy**

Numero passaporto

M5029845

Numero di telefono

+393283983445

CLINICAL EXAMINATION

RT-PCR analysis of SARS-CoV-2 virus RNA

Method	Realtime-PCR
Sample Collection Date	05/21/2022
Test Result Date	05/22/2022
Sample Type	Throat swab

Analisi RT-PCR dell'RNA del virus SARS-CoV-2

Metodo	Realtime-PCR
Data di ritiro del campione	05/21/2022
Data Risultato Test	05/22/2022
Tipo di campione	Tampone faringeo

Manufactured by:
HangZhou All Test Biotech Co., LTD

RESULT

● **NEGATIVE**

● **NEGATIVO**

Test Details:

The COVID-19 RT PCR Swab test is used to detect direct presence of SARS-COV-2. Sampling and analysis of the test are conducted in line with ISO 15189 quality standards at a certified laboratory. A not detected (negative) test result means that no RNA from the SARS-CoV-2 (COVID-19) virus was found in your sample. A negative PCR-SARS-CoV-2 test result still does not exclude an infection. If you have any complaints, please consult your doctor. The certification for the laboratory can be viewed and downloaded using the link:
